

Georgia Alcohol Profile

Morbidity

In 2019, Georgia had **44 new cases** of alcohol-associated cancers **every day**

36.9% of people in federally funded substance use treatment programs in 2020 were admitted for alcohol use

Mortality

25% of crash fatalities in 2019 were from alcohol-impaired driving crashes

From 2011-2020, **9.9%** of accidental drug overdose deaths involved alcohol

From 2015-2019, **333 cancer deaths per year** were attributed to excessive drinking

Cost

According to the most recent data, the total cost of excessive drinking in Georgia is nearly **\$7 billion**

The total cost of excessive drinking in Georgia is **\$2.12** per drink

Alcohol Policy Landscape

The **Alcohol Policy Scale (APS)** assesses 29 state-level policies from 1999-2018 and assigns all 50 states plus the District of Columbia a score out of 100. A score close to 100 reflects a strong alcohol policy environment. A state rank of 1 demonstrates the most restrictive alcohol policy environment, while a rank of 51 demonstrates the least restrictive policy environment.

Overall score of **40.9** out of 100

Ranked **34th** out of 51
